COLLECTION

MILLEPIEDI

P+F Parisotto+Formenton

Il design contemporaneo ed essenziale del sistema di sedute Millepiedi declina in molte configurazioni e dimensioni un'idea concettuale di funzionalità e flessibilità coniugata con un'estetica fatta di dettagli curatissimi.

Millepiedi è stato inserito nel prestigioso ADI Design Index, la pubblicazione annuale di ADI Associazione per il Disegno Industriale che raccoglie il miglior design italiano messo in produzione, selezionato dall'Osservatorio permanente del Design ADI.

The Millepiedi seating system is characterized by a modern and minimal design and develops a concept of functionality and flexibility in a wide range of configurations and dimensions.

Millepiedi has been included in the prestigious ADI Design Index book, an annual publication by the Association for the Industrial Design, which collects the best pieces of Italian design selected by the Permanent Observatory of Design ADI.

ORACLE

Orlandini Design

Sistema componibile di sedute imbottite per aree pubbliche caratterizzate dallo schienale molto alto e protettivo della privacy, una sorta di muro divisorio con il mondo esterno. Più che semplici divani sono dei veri e propri mini-ambienti in cui poter ritrovare la giusta dimensione per lavorare, discutere o anche solo riposare.

La nuova gamma Oracle prevede una collezione di scrivanie e banchi installati sulla stessa struttura imbottita di Oracle con schienale alto. I tavoli possono essere usati come postazione lavoro veloce in spazi aperti e consentono la creazione di microambienti ufficio combinati con gli elementi divano e paretina. I piani in legno o MDF laccato possono essere elettrificati con prese e USB.

Modular system of upholstered seats for public areas, characterized by the high and embracing backrest that gives a great privacy protection, working as a divider from the outside world. Oracle are something more than just sofas, they are actually mini-environments where to find the right dimension you need for working, having a chat or simply relaxing. The new collection of Oracle includes a range of desks and counters installed on the same upholstered high backrest structure of the sofa. These new elements can be used as a flexible workstation in open areas, allowing to create "micro-office" spaces when combined with the Oracle sofa and connection wall. Desk tops, available in wood or lacquered MDF, can be integrated with power and USB outputs.

DNA

Leonardo Rossano & Debora Mansur

Ispirata dalle forme dinamiche della biogenetica, la panca modulare DNA consiste in un singolo elemento in multistrato di legno curvato, assemblato specularmente. Il risultato è un avvolgente elemento d'arredo dalla particolare forma ad elica, ad ogni passo della quale corrisponde una seduta opportunamente separata dalle altre. La struttura in legno può essere completamente a vista o rivestita nella sua parte anteriore.

La nuova versione a elementi curvi permette di creare composizioni originali, ad arco o a "S".

Inspired by the dynamic forms of biogenetics, the modular bench DNA consists in a unique construction assembly that is created by a single section of curved plywood, which is mirrored in design to create multiple seating configurations. The result of this system is a captivating piece of furniture, shaped after the helix form in which each completed section creates an individual seat for the user creating comfort in a public space. The wooden structure can also be upholstered on its front side. The new version of DNA with curved elements allows to create original composition, arch or "S" shaped.

NOT

E-ggs Design

Un'ampia scocca avvolgente racchiude la seduta in un morbido abbraccio. Le cuciture ne definiscono e disegnano le linee morbide, dandole un aspetto elegante e versatile. Adatta a sale conferenza e aree relax di hotel e residenze.

A wide shell embraces the seat in a warm embrace. The seams define the soft lines, giving it an elegant and versatile look. Suitable for conference hall and relax spaces of hotel and domestic environment.

ARCA

Orlandini Design

Arca rappresenta una declinazione completa del concetto di poltrona per spazi attesa, meeting e lounge, proponendosi in 2 dimensioni di seduta e 3 differenti altezze di schienale abbinabili a numerose tipologie di basamenti. La versione "lounge" con schienale basso è ideale per ambienti attesa veloci, o per grandi meeting rooms, mentre la variante con schienalino aggiunto dona maggiore importanza e comfort alla seduta. La sua declinazione più caratterizzante è con lo schienale alto, avvolgente, ma non invadente, per una pausa in completo relax, anche nella particolare configurazione con base a dondolo. Arca "small" ripropone le forme della versione "lounge" ridimensionate per zone riunione. Arca ricalca alla perfezione l'attuale concetto di "Smart Lounge", in cui l'attesa diventa un momento di riflessione, lavoro o semplice relax sul web; tutte le versioni di Arca sono pertanto accessoriabili con una tavoletta di appoggio, dalle dimensioni generose, installata su un meccanismo di rotazione.

Arca defines a new concept of armchair for lounges and waiting areas, available in 3 backrest heights, which can be combined to many base typologies. The Lounge version, with low backrest, is ideal for quick waiting areas, large meeting rooms, while the medium back option, with backrest cushion, gives more prestige and comfort to the armchair. The High version gives the unique touch of design to this collection, with its embracing backrest for a break of full relax, especially with its rocking base. Arca "small" keeps the same design of the "lounge" version, resized for meeting environments.

Arca perfectly traces the new concept of "Smart Lounge", where waiting moments become great occasions for reflection, working or relaxing on the web; all versions of Arca can indeed be equipped with a large writing tablet, swivel around the arm.

CLARA

P+F Parisotto+Formenton

Piccola collezione di sedute, composta da poltroncina e dormeuse, caratterizzata da forme avvolgenti.

Clara abbraccia la persona seduta grazie ad un accogliente elemento che serve da schienale e bracciolo. La sua marcata asimmetria emerge come la maggiore connotazione estetica di un arredo di ispirazione classica, ma di taglio contemporaneo, che vuole evidenziare al primo sguardo l'invito ad una seduta confortevole, rilassata ed informale tra le sue curve.

Collection of seats composed by armchair and dormeuse, defined by sinuous shapes.

Clara embraces the person seated thanks to a comfortable element working as backrest and armrest. Its pronounced asymmetry emerges as the main aesthetic feature in this piece of furniture of classic inspiration but of modern design. A comfortable seat, relaxing and informal alongside its rounded shapes.

HIVE

Favaretto & Partners

Hive rappresenta la sintesi della poltrona nello spazio direzionale, proponendo una collezione completa di sedute girevoli per ufficio e poltrone per tavoli riunioni e ambienti d'attesa caratterizzate dalla struttura in legno massello. Le forme rigorose sono armonizzate dalle cuciture che ne valorizzano il design.

Hive represents the synthesis of the armchair in the executive environment, with a full collection of rotating chairs for the office and solid wood armchairs for meeting tables or waiting areas. The rigorous shapes get along with the stitching, endorsing the design.

SLIGHT

Christophe Bourban & Luciano Dell'Orefice

Sottile come una foglia, la collezione di sedute Slight prende il classico imbottito in contropiede. Come una pagina appena piegata, la scocca soffice vi abbraccia in modi diversi e si declina a seconda delle esigenze d'uso. Pensato sia per gli spazi d'attesa sia per gli ambienti domestici.

Thin as a leaf, Slight sofa collection takes the opposing view to the classic padded sofa. Like a little folded page, the soft body embraces you in different ways and comes out in several forms according to use requirements, suitable for waiting areas as well as domestic interiors.

WRAP

Christophe Bourban & Luciano Dell'Orefice

Caratterizzata dallo schienale avvolge il sedile, la collezione di sedute WRAP è composta da poltrona e divanetto disponibili in due diverse dimensioni. Alla versione standard si affianca una nuova variante "maxi", dalle dimensioni più generose, adatta oltre che per gli spazi attesa, anche per lounge e lobby di hotel.

The peculiar shape of the backrest, wrapped around the seat, gives WRAP sofa collection a unique identity. The collection is now completed by a new "maxi" version of both armchair and sofa, suitable for waiting areas, lounges and hotel lobbies.

BIBLIS

Avio Calandrin + Eugenio Farina

La serie di sedute Biblis si caratterizza per la presenza di valori estetici derivati dall'ambiente home trasferiti al settore contract, fondendo il calore della casa con il linguaggio minimalista tipico dello spazio pubblico; il risultato è una forma senza tempo, che si può adattare ad ambienti dalle molteplici destinazioni d'uso e coordinate estetiche.

The Biblis collection is characterized by aesthetic connotations typical of the home environment transferred to the contract, combining the warmth of home with the minimalistic language of the public space. The result is a timeless shape, adaptable to the flexibility of the modern working and domestic environment.

NOSMOKING

P+F Parisotto+Formenton

La famiglia di imbottiti Nosmoking si compone di poltrona e divano, concepiti per allestire zone d'attesa, grandi spazi, lounge. Il design dalle linee compatte ha proporzioni insolite che danno un carattere di forte riconoscibilità alla collezione. Lo schienale, insolitamente alto, avvolge con due corte orecchie inclinate la persona seduta donando un effetto inaspettato di privacy e comodità. Struttura, seduta e schienale giustapposti tra loro come elementi indipendenti formano un'intersezione delle linee dinamiche che connota fortemente il fianco.

A family of padded seats composed by armchair, and sofa designed to fit inside waiting areas, large spaces and lounge. The design is defined by compact lines and unusual proportions, which makes Nosmoking standing up among the classic seating collections. The backrest, unusually high, embraces the user with two short "ears", providing an unexpected effect of privacy and comfort. Structure, seat and backrest are juxtaposed as independent elements that create dynamic lines when the intersect each other, giving a strong peculiarity to the side view.

POSEIDONE

Leonardo Rossano

Sintesi di gusto classico e contemporaneo, presenta volumi solidi, che pur nel rigore delle sue forme lo rendono protagonista dell'ambiente in cui viene inserito. La versione Mini ne consente il posizionamento anche in ambienti più contenuti.

A mix of classic and contemporary touch makes this sofa a peculiar piece of furniture, characterized by solid volumes. The smaller Mini version makes it fit even in smaller environments.

ALADDIN

Leonardo Rossano

Aladdin è il confortevole sistema di poltrone e divani caratterizzato da forme sinuose ed avvolgenti; è stato ideato per gli spazi pubblici destinati all'attesa e al relax.

La sapiente manifattura artigianale contribuisce alla creazione di un divano dall'aspetto intrigante, indicato per zone informali di riposo anche in ambiti domestici.

Aladdin is the comfortable seating system characterized by sinuous and embracing shapes, it's made for waiting areas and relaxing public spaces.

The skillful handcrafted production contributes to the creation of an intriguing sofa, perfect for informal spaces, both public or domestic.

HEBE

Favaretto & Partners

Divano caratterizzato da linee essenziali e rigorose per una pulizia d'immagine e grande comfort di seduta. Sono disponibili diversi elementi preconfigurati: poltrona, divano a due o tre posti oppure componibile con elementi centrali e terminali, che consentono molteplici soluzioni lineari e/o ad angolo.

Sofa defined by essential and rigorous shapes, which give a very clean design and high comfort. Armchair, two and three seaters sofas are available as well as composable central and side elements for various linear and corner configurations.

MARINA

Leonardo Rossano

La sedia Marina è caratterizzata da geometrie dinamiche e lineari. La sagoma sfaccettata della scocca in compensato interagisce con la struttura che la sostiene generando un sistema di sedute dalla spiccata personalità. Particolarmente indicata per il settore del contract, è disponibile anche imbottita e può essere completata da braccioli e altri accessori.

The design of Marina is defined by linear and dynamic geometries. The shape of the seat in multilayered wood interacts with the metal frame, generating a system of marked personality. Particularly recommended for the contract branch, it is available also in the padded version and can be customized with armrests and other accessories.

KAY

Leonardo Rossano

La sedia girevole Kay nasce dall'unione di due semplici scocche in multistrato curvato. L'elemento della seduta avvolge i braccioli dando l'illusione di una funzione strutturale del morbido rivestimento. Il risultato di questo ludico utilizzo dei materiali è una seduta dalla disinvolta eleganza che può essere utilizzata in zone d'attesa e relax o nell'area office all'interno di spazi privati.

The swivel chair Kay comes from the combination of two simple elements of bent plywood. The seat wraps the armrests giving the illusion of the soft padding's structural function. The result of this playful use of the materials is a nonchalant elegant chair that can be used in waiting and relax areas in offices or in an office zone in private spaces.

GEA

Leonardo Rossano

Poltroncina girevole studiata per lo spazio d'attesa, può essere facilmente collocata anche in ambiente domestico grazie all'aspetto accattivante, frutto di una ricerca sulle possibilità espressive di una singola superficie. Il comfort della poltrona è rafforzato dalle diverse posizioni di seduta e dalla possibilità di utilizzare gli ampi braccioli come base d'appoggio per computer portatili di piccole dimensioni.

Swivel chair designed for waiting spaces, it can be easily placed in house environments thanks to its attractive appearance, as a result of the research on the expressive possibilities of a single surface. The high comfort of the chair is enhanced by different seating positions and the possibility to use its wide armrests as a support for small laptops.

GRILLO

P+F Parisotto+Formenton

Grillo è caratterizzato dal contrasto tra la struttura, le zampe, dinamica e caratterizzata da curve tese ed archi contrapposti che si incontrano e la seduta che vi si inserisce come giustapposta.

Il nastro in lamellare termocurvato, senza mai cambiare la propria sezione ma solo attraverso delle calibrate torsioni, crea in continuità prima il piede, poi il bracciolo e lo schienale come un unico segno che si muove nello spazio. Grande valenza estetica ha il contrasto, con cui si può giocare, tra il colore e la caratterizzazione materica degli elementi in legno e di quelli imbottiti.

Grillo is defined by the contrast between the structure, the paws, dynamic and characterized by stretched curves and counterposed arches, gathering with the seat in between, juxtaposed.

The thermo curved wooden element, without ever changing its section but only through calibrated torsions, creates the foot, the armrest and the backrest as a unique line moving through the space. The contrast between the colors and the materials is the main aesthetic feature of this collection.

PINCETTES

Luciano Dell'Orefice

Pincettes è una collezione di pannelli divisori che garantiscono un elevato livello di privacy senza rinchiodare troppo l'utilizzatore, nel rispetto del rito dei momenti di pausa quotidiani. La logica costruttiva è molto semplice ed è adatta per ricavare piccole isole di pace all'interno dell'ambiente di lavoro, dove poter riposare, leggere, chiacchierare o fare una pausa in tutta intimità. Il modulo è composto da un pannello in fibra di poliestere termoformato tra due strati di tessuto, pinzato all'interno di una struttura in legno massello inserita su un piedistallo di cemento grezzo o fissata a soffitto.

Pincettes is a set of open dividers that offers ways to isolate without encasing the users, respecting their habits when it's break time. The construction is very simple and is adapted to work spaces making small and quiet islands where you can rest, read, chat or take a nap out of sight. The module is composed by a multilayer panel of polyester and textile pinched in a solid wood structure and fixed to a concrete base or to the ceiling. Pincettes having the double function of privacy divider and acoustic insulation adapts itself, by its great chromatic and typological options, to any space.

WING

P+F Parisotto+Formenton

Wing è un tavolo che nasce per gli ambienti di lavoro, ma può essere declinato in contesti di home-office o domestici. Si caratterizza per la struttura sottostante leggera, che trae ispirazione dai cavalletti dei tavoli da lavoro, e per il top dalle forme arrotondate "a saponetta" dalle linee molto contemporanee.

Dotato di grande flessibilità d'uso, si accompagna ad accessori come i pannelli divisorii imbottiti, la lampada centrale in ottone e i vassoi in legno e metallo che si inseriscono, grazie a un sistema di agganci magnetici, sul grande canale centrale adibito anche alla distribuzione elettrica e all'organizzazione cavi.

Wing is a table created for working areas, but it can also fit inside a home-office or domestic environment. It is characterized by a wooden frame inspired by the sawhorse of the working tables, and the rounded shape of the top with its contemporary lines.

Defined by great flexibility, Wing can be completed with acoustic panels, a brass reading lamp and wooden or metal trays that are installed on the large central channel through a magnetic fixing system. Power supply and cable management are allocated on the same central channel.
