

Hive

Favaretto & Partners

true

10 years after its debut in the market as an executive office chair and waiting armchair, Hive has been revisited and redesigned to adapt to the new needs of the lounge, waiting and hospitality segment. The new polyurethane shell is available in chair and armchair version with double backrest height. The design is characterized by the pronounced lines of the compact armrest and the stitching that shapes the backrest in a vertical direction. It is available with a solid wood 4 legs base or with a 4-spoke steel swivel base.

Dopo 10 anni dal suo debutto nel mercato come seduta per l'ufficio direzionale e poltroncina attesa, Hive è stata rivista e ridisegnata per adattarsi alle nuove esigenze del segmento lounge, attesa e hospitality. La nuova scocca in poliuretano schiumato a freddo è disponibile in una versione seduta e poltrona con doppia altezza di schienale. Il design è caratterizzato dalle linee marcate del bracciolo compatto, e dalle cuciture che disegnano lo schienale in senso verticale. Il basamento è in legno massello a 4 gambe e girevole a 4 razze in acciaio.
