regeneration

I prodotti ritirati dal mercato hanno le seguenti caratteristiche:

- 100% POLIPROPILENE (PP);
- senza contaminazioni di altri materiali;
- prodotti di arredo conformi (tavoli, lettini e sedie)

Products recovered from the market have the following characteristics:

- 100% POLYPROPYLENE (PP);
- uncontaminated by other materials;
- compliant furniture products (tables, sunloungers and chairs)

La triturazione del prodotto ritirato, esente da metalli e contaminazioni, consente di ridurre gli oggetti in piccole parti. Il polipropilene triturato viene omogeneizzato e uniformato nel colore consentendo la realizzazione di nuovi prodotti a loro volta riciclabili

The shredding of recovered products, free from metals and contaminants, allows objects to be reduced to small parts. Shredded polypropylene is given a uniform colour, allowing new products to be created that can, in turn, be recycled

Il polipropilene rigenerato dà vita a nuovi prodotti in un'ottica di economia circolare. Con un prodotto rigenerato si riduce l'impiego di materia prima e di energia con evidenti benefici ambientali

Regenerated polypropylene can be used for new products based on the circular economy. A regenerated product involves a reduction in the use of raw materials and energy, with obvious advantages for the environment

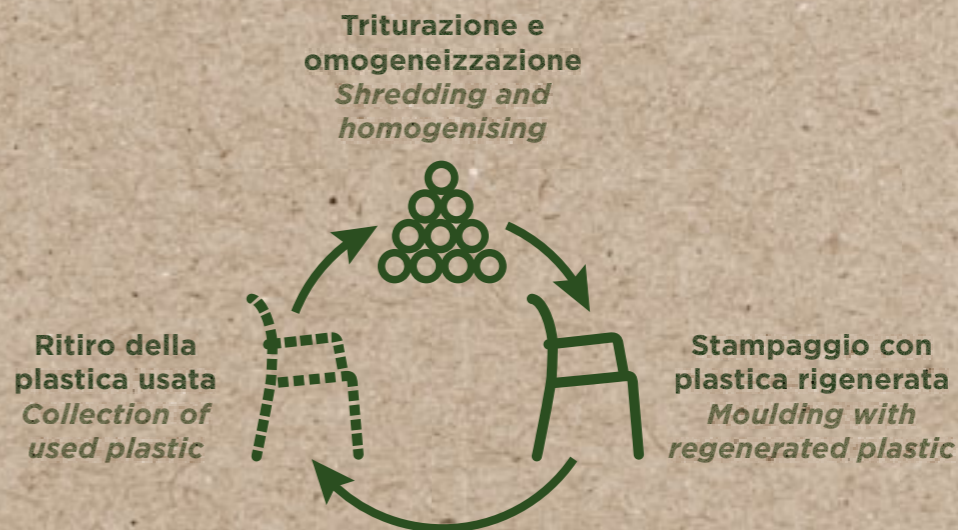

regeneration

I prodotti in polipropilene Nardi sono riciclabili al 100% e possono, una volta rientrati in Azienda, dare vita a nuovi prodotti.

Nardi ha sempre riciclato tutti gli scarti di produzione; da qui l'idea di recuperare la plastica per rigenerarla. REGENERATION è un programma industriale per la rigenerazione della plastica usata messo a punto da Nardi, azienda specializzata nell'arredo outdoor e nella ricerca di nuove modalità del vivere bene all'aria aperta.

Nardi polypropylene products are 100% recyclable and when returned to the company, they can be used to create new products. Nardi has always recycled all its production waste and this led to the idea of recovering used plastic to regenerate it.

REGENERATION is an industrial programme to regenerate used plastic by Nardi, a company specialised in outdoor furniture and researching new ways of enjoying outdoor life.
