Karboxx continua il lavoro di ricerca e di approfondimento delle tematiche progettuali da sempre alla base della filosofia di crescita dell'azienda.

Osservare le persone ed i loro modi di vivere.

Scoprire ed anticipare le tendenze ed abilità nell'interpretare concetti esistenti creando combinazioni originali, stabilendo nuovi valori.

Ecco le collezioni di raffinata semplicità che da sempre caratterizzano e contraddistinguono Karboxx.

Karboxx continues its research and in-depth analysis of the design themes that have always been at the basis of the company's growth culture. Observing people and lifestyles. Discovering and anticipating trends and ability to interpret existing concepts, creating unorthodox combinations and thereby setting new standards. New collections always in line with the image of sophisticated simplicity that has been a recurring and distinctive feature of Karboxx.

Karboxx setzt seine Anstrengungen in Forschung und Untersuchung der Design-Themen fort, die seit jeher im Mittelpunkt der Wachstumsphilosophie sind: Menschen und ihre Lebensweise beachten, Trends und Fähigkeiten entdecken und vorhersehen und bestehende Konzepte in originelle Kombinationen und neue Werte umsetzen. Hier sind die Kollektionen, von eleganter Schlichtheit geprägt, die Karboxx unterscheiden.

Karboxx poursuit son travail de recherche et d'analyse en profondeur des thèmes du design qui sont depuis toujours à l'origine du développement de la Société. Observer les gens et leur style de vie. Découvrir et anticiper les tendances avec la capacité d'interpréter les concepts existant, créer des mélanges peu orthodoxes et les transformer en nouveaux standards. Nouvelle collection toujours en adéquation avec l'image de simplicité sophistiquée qui a toujours été le signe distinctif de Karboxx.

#### ENRICO FRANZOLINI

Nato a Udine nel 1952 studia a Firenze e Venezia dove si laurea in Architettura. Nel 1972 fu invitato a partecipare alla 36ª Biennale di Venezia esponendo oggetti in vetro di Murano prodotti dal laboratorio di Livio Seguso. Nel 1978 la sua prima personale alla Galleria Plurima di Udine, inizio di un lavoro di ricerca nell'architettura minimale continuando il suo impegno nel disegno industriale.

Born in Udine in 1952. He studied in Florence and graduated in architecture at the University of Venice. In 1972 he was invited to the 36<sup>th</sup> Biennale Exhibition of decorative arts in Venice, exhibiting two objects produced by the Livio Seguso glass-manufactory in Murano. In 1978 his first personal exhibition at Plurima Gallery in Udine marked the beginning of his interest in minimal architecture. At the same time however he became interested in architecture and interior and product design.

#### SERENA PAPAÏT

Serena Papait, nasce a Portogruaro (Venezia) nel 1985. Si diploma nel 2007 in Disegno Industriale all'Università di Venezia ed inizia fin da subito a collaborare con numerose aziende e professionisti. Forte è la passione per l'arte e la fotografia come l'amore per la luce e le sue forme.

Serena Papait was born in Portogruaro (Venice) in 1985, where she achieved the teacher-training diploma and began to grow her art passion, taking part in some collective exhibition of the territory. She enrolled in the course of Industrial Design at the University Institute of Architecture in Venice IUAV dove si diploma nel 2007.

#### VICENTE GARCÍA JIMENEZ

Nato a Valencia (Spagna) nel 1978. Diplomato in Ingegneria Tecnica in Disegno Industriale all'Univeristà Castellon de la Plana trasferendosi poi a Barcellona. Parallelamente sviluppa i suoi interessi nell'ambito del design realizzando e sperimentando prototipi. Si trasferisce a Udine dove apre il suo studio che sviluppa prodotti di illuminazione, mobili ed allestimenti collaborando con numerose aziende.

Vicente was born in Valencia (Spain) in 1978. He graduated at the Faculty of Experimental Sciences in Castellon de la Plana. Later he moved to Barcelona. There he developed lighting and interior furniture designs. At this time he developed an interest with the environmental aspect of designing these items, constructing his first prototypes in this field. He moved towards Udine and he set up his Studio, that collaborates with a lot of companies, developing lighting products, furniture and exhibitions' settings.

#### FABIO FLORA

Cerca oggetti che rappresentano le forme archetipali, funzionali e costruttive. Cerca di conoscere la genesi. Analizza i modelli simbolici ed i valori di progettazione composti da semplici elementi geometrici.

He Looks for objects that represent archetype forms, functional and constructive. He tries to know the genesis. He analyses the symbolic values designing models made up from simple geometrical elements.

#### DAVID DOLCINI

"Credo che l'anima di ciò che chiamiamo design risieda nel costante rapporto tra complessità e semplicità, tra ciò che è visibile e ciò che è celato. Da sempre ho subito il fascino degli oggetti che incarnano questo delicato e raffinato gioco di equilibri. In ogni mio prodotto cerco di ricreare questa magia". Nato in Italia, nei pressi di Milano. La sua visione e il suo approccio al progetto provengono dalla mescolanza di molteplici esperienze educative e di lavoro all'estero nel corso degli anni.

"My work aim to investigate the relationship between complexity and simplicity, in search of that magic that only the delicate play of balances between these two elements can recreate". David was born in Italy, near Milan. His vision and approach to design comes from a whole variety of educational and professional experiences abroad over a number of years.

#### THOMAS FEICHTNER

Il lavoro di Thomas Feichtner si concentra sugli aspetti artistici e della sperimentazione. Cercando una modalità progettuale che non rispetta il dogma tradizionale e che va oltre la globalizzazione e la produzione di massa. Il suo lavoro coniuga sia l'aspetto artistico oltre alla sperimentazione. I suoi lavori sono presenti nelle più importanti collezioni nel mondo. È professore alla Muthesius Academy of Fine Arts and Design ed ha ricevuto il riconoscimento dalla Austrian State Award for Design nell'anno 2011. Abita e vive a Vienna.

Thomas Feichtner work is focused on artistic aspects and a more experimental approach. In search of an independent mode of operation that went beyond globalization and mass production. His works have been acquired by the most important design collections all over the world. Feichtner is a professor for product design at the Muthesius Academy of Fine Arts and Design and was awarded by the Austrian State Award for Design 2011. He lives and works in Vienna.

#### BRIAN RASMUSSEN

Nato a Ringsted (Danimarca) nel 1973. Si laurea alla Royal Accademy di Architettura a Copenhagen nel 2000. Il suo progetto futuristico per una stazione metro, vince il premio "PRISOPGAVE KØBENHAVN" (Danimarca). Dopo gli studi si trasferisce a Venezia, aprendo il suo studio di architettura e design. Nel 2004, vince il premio internazionale, Targetti Light Art Ward, che segna l'inizio della sua carriera quale light designer.

Brian was born in Ringsted (Denmark) in 1973. He graduates at The Royal Academy of Architecture in Copenhagen in 2000. All ready as a first year student his wins the national student competition " PRISOPGAVE KØBENHAVN" (Denmark) with a project for a futuristic metro station. After his studies he moved to Venice, opening his own office of architecture and design. In 2004 he wins the international art competition Targetti Light Art Ward which becomes a starting point for his career as lighting designer.

#### MARTA LAUDANI E MARCO ROMANELLI

Marta Laudani e Marco Romanelli, architetti, collaborano dal 1988 negli studi associati di Roma e Milano. Operativi nei campi del design, dell'architettura degli interni, dell'exhibit design (si ricorda, nel 2002-2003 l'antologica "Gio Ponti: a World" al Design Museum di Londra e alla Triennale di Milano; nel 2007 "Bruno Munari" al Tokyo Shiodome Italia). Il lavoro di progettazione si è sempre affiancato per entrambi ad un'intensa riflessione critica sui temi dell'abitare e del design: Marta Laudani ha insegnato "Architettura degli interni" e "Storia del design contemporaneo" alla facoltà di Architettura della Sapienza di Roma.

Marta Laudani and Marco Romanelli, architects, have been collaborating since 1988 in the associated offices of Rome and Milan. They work in the fields of design, interior decorating and exhibit design (in 2002-2003 "Gio Ponti: a World" at the London Design Museum, Rotterdam NaI and Triennial of Milan; in 2007 "Bruno Munari" in Tokyo). Both flank their design work with an intense critical meditation on topics involving living and design: Marta Laudani has lectured at the Sapienza in Rome. Lighting products, furniture and exhibitions' settings.

#### MASSIMILIANO MORNATI

Como 1970, si laurea in architettura a Milano nel 1998, dopo esperienze in studi di architettura a Rotterdam, Berlino e Milano inizia la sua attività di progettista nei campi dell'architettura, dell'allestimento e del disegno del prodotto continuando il suo impegno nel disegno industriale.

Como 1970, graduated in Architecture in Milan 1998, after gaining experience in architects' studios in Rotterdam, Berlin and Milan he began his activity as an industrial designer.

#### MORENO DE GIORGIO

Dopo la Laurea in Architettura a Venezia apre lo studio nel 2006 e si concentra sugli aspetti peculiari del disegno per l'industria. Alterna attività di ricerca a fare "artigiano", forte radicamento al territorio di appartenenza a tematiche di respiro globale, come sostenibilità, efficienza, paesaggio. Con la rivoluzione Led si appassiona al lighting e a illuminare in maniera efficace e confortevole residenza, luoghi di lavoro, spazi per il commercio, spazi espositivi, che considera veri e propri "habitat" per le persone.

After he graduated in Architecture in Venice he opened his own studio in 2006, directly involved as external consultant in a number of corporate teams. With the Led revolution, he focuses on lighting for workspaces the he considers as real "habitat" for the people.

#### ALESSIO PRINCIC E ROBERTO RIGHI

Alessio Princic si laurea in architettura nel 1982 a Ljubljana e nel 1985 a Venezia. Dal 1996 è assistente e poi professore all'università di Ljubljana, nel 2011 diventa professore associato e detiene due cattedre presso la facoltà di architettura di Maribor. Nel 1993 è tra i 40 giovani architetti italiani under 40 e molti sono i riconoscimenti ottenuti tra i quali l'European Steel Design Award in Lussemburgo, nel 2009 e nel 2012 la medaglia per l'architettura Plecnik in Slovenia e nel 2010 il premio internazionale METRA. Roberto Righi, nato a Gorizia nel 1974, si laurea nel 2001 in ingegneria all'Università di Trieste. Da sempre affascinato dal mondo dell'architettura e del disegno collabora dal 2002 con l'arch. Alessio Princic a Udine con cui partecipa alla progettazione di architetture e di interni.

Alessio gets the degree in Architecture in Ljubljana in 1982 and then in Venice in 1985. Since 1996, he has been Teaching Assistant, then Professor at the University in Ljubljana and in 2011 he became an Associated Professor holding two teaching posts at the University of Architecture in Maribor. In 1993, he was acknowledged amongst the 40 young talian architects under 40 and his accolades include the European Steel Design Award in Luxembourg, the Plecnik medal for Architecture in 2009 and 2012 and the international METRA award in 2010. Born in Gorizia in 1974, Roberto Righi graduated in Engineering at the University of Trieste in 2001. Long fascinated by the world of Architecture and Design, in 2002 he began to collaborate with Architect Alessio Princic in Udine. Together they conceive architectural and interior design projects.

# FABRIXX / TECHNOLOGY

Il tessuto si trasforma grazie ad un innovativo processo produttivo chiamato Fabrixx. Karboxx ha realizzato un nuovo concetto di paralume che unisce la tradizione e la bellezza estetica del tessuto alla praticità e durabilità dei materiali più resistenti. La tecnologia Fabrixx consente di fondere il tessuto come il lino naturale alla fibra di vetro, conservandone le caratteristiche estetiche tipiche come la trasparenza e la diffusione della luce, aggiungendo elementi quali indeformabilità, resistenza ai liquidi, facilità di pulizia ed assenza di qualsiasi manutenzione per una durata nel tempo infinita.

Dank eines neuen, innovativen Produktionsprozesses entstand aus Stoff ein neues Produkt namens Fabrixx. Karboxx hat ein innovatives Konzept für Lampenschirme entwickelt, das Tradition und Ästhetik des Stoffes mit der Belastbarkeit der resistentesten Materialien vereint. Die Technologie Fabrixx erlaubt es, Stoffe wie natürliches Leinen mit Glasfasern zu verschmelzen und gleichzeitig die typischen Merkmale wie Transparenz und Lichtverteilung des Leinens beizubehalten und mit Eigenschaften wie Formstabilität, Resistenz gegen Flüssigkeiten, leichte Pflege und eine auf Dauer überflüssige Instandhaltung zu vereinigen.

Fabric is transformed through an innovative productive process called Fabrixx. Karboxx has created a new concept of lampshade that combines the tradition and aesthetic beauty of fabric with the practicality and durability of more resistant materials. Fabrixx technology combines fabric like natural linen with fibreglass, preserving its typical, essential features like transparency and the diffusion of light and adding non-deformability, resistance to liquids, ease of cleaning and the absence of any need for maintenance for an infinite period of time.

Le tissu se transforme grâce à un processus de production innovant appelé Fabrixx. Karboxx a mis au point un nouveau concept d'abat-jour qui allie la tradition et la beauté esthétique du tissu à la commodité et la durabilité des matériaux plus résistants. La technologie Fabrixx permet de fondre le tissu, comme le lin naturel, dans la fibre de verre, tout en conservant ses caractéristiques esthétiques typiques telles que la transparence et la diffusion de la lumière, tout en y ajoutant des éléments comme l'indéformabilité, la résistance aux liquides, la facilité de nettoyage et l'absence d'entretien pour une durée infinie.

# GRACE /

Designed by Moreno De Giorgio

A volte il risultato di un design rigoroso e poetico nasce dal piacere quotidiano di ripensare le parti di un oggetto familiare e ben radicato nella memoria collettiva, per anticipare nuove necessità e tendenze, in un abile e mai scontato equilibrio tra innovazione tecnologica e semplice eleganza formale. Grace parte da una completa rilettura della tradizionale lampada con paralume, attraverso l'essenzialità del disegno unita alla praticità delle finiture, come la scelta del materiale del diffusore tessile, in lino con fibra di vetro e strutturalmente autoportante, grazie alla tecnologia Fabrixx sviluppata da Karboxx. Lo stelo verticale, non più ortogonale alla base, è caratterizzato da un gambo delicato e organico, al cui interno scorre il filo di alimentazione, che si stacca da una preziosa e leggera base ad anello, per crescere spontaneamente all'insù, verso il paralume contenente la luce, sospesa a mezz'aria. Scelta ardua, inusuale e carica di inventiva, fonte di nuove, inedite e gradevoli atmosfere.

Hin und wieder wird das Ergebnis eines rigorosen, poetischen Designs aus dem täglichen Bedürfnis heraus geboren, die Bestandteile eines wohl bekannten, im kollektiven Verständnis verankerten Gegenstandes neu zu überdenken um so neuen Tendenzen und Bedürfnissen in einem faszinierenden Gleichgewicht zwischen innovativer Technologie und schlichter, formeller Eleganz vorzugreifen. Grace interpretiert die traditionelle Leuchte durch ein essentielles Design in Verbindung mit der Alltagstauglichkeit der Materialien des, dank der von Karboxx entwickelten Technologie Fabrixx, selbsttragenden Leuchtschirmes aus Leinen und Glasfasern. Das Gestell wächst aus seiner runden Basis zielstrebig nach oben zum Lampenschirm hin. Eine gewagte, außergewöhnliche Kombination als Quell für angenehme, unerforschte Kreationen neuer Atmosphären

Sometimes rigorous, poetic design is the result of a daily pleasure of redesigning the parts of a familiar object that is well-rooted in collective memory, to anticipate new needs and trends, in a capable and never banal equilibrium between high tech innovation and simple formal elegance. Grace begins with a complete reinterpretation of a traditional lamp with a lampshade, through the essential nature of the design, combined with the practicality of the finishes, like the choice of material for the fabric diffuser (linen and fibreglass) which is structurally self-supporting, thanks to Fabrixx technology developed by Karboxx. The vertical stem, which is no longer perpendicular to the base, features a delicate, organic stalk that contains the wiring, which detaches from a fine, light ring-shaped base to move to grow spontaneously upwards, towards the lampshade containing the light, suspended in the air. A courageous, unusual choice full of inventiveness, which is the source of delightful, and brand new concept's.

Parfois, le résultat d'un design rigoureux et poétique naît du plaisir quotidien de réinventer les éléments d'un objet familier et profondément enraciné dans la mémoire collective, pour anticiper les nouveaux besoins et les tendances, dans un équilibre habile et jamais évident entre innovation technologique et simple élégance formelle. Grace est née d'une relecture complète de la lampe traditionnelle avec abat-jour, à travers l'essence du dessin et la commodité des finitions, comme le choix du matériau du diffuseur textile, en lin avec fibre de verre et structurellement autoporteur, grâce à la technologie Fabrixx développée par Karboxx. La tige verticale, non plus orthogonale à la base, est caractérisée par un pied délicat et organique, à l'intérieur duquel passe le fil de l'alimentation, qui se détache d'une base en anneau précieuse et légère, pour ensuite pousser spontanément vers le haut, vers l'abat-jour contenant la lumière, comme suspendue dans l'air. Choix courageux, insolite et plein d'invention, source d'atmosphères nouvelles, inédites et agréables.

Lampada da terra con struttura in metallo verniciato colore scuro; paralume in lino naturale e fibra di vetro (tecnologia Fabrixx).

Floor lamp with metal structure painted in a dark colour; shade in natural linen and fibreglass (Fabrixx technology).

Lampadaire avec structure en métal laqué couleur sombre et abat-jour en lin naturel et fibre de verre (technologie Fabrixx).

Bodenleuchte mit Metallgestell (schwarz halbgänzend lackiert); Leuchtschirm in Naturleinen und Glasfaser (Technologie Fabrixx).

# STARLIGHT /

Designed by Serena Papait

Starlight è una collezione di lampade dall'aspetto esile ma deciso, dove gli elementi geometrici vengono accostati creando un effetto dinamico.

La tecnologia utilizzata per l'illuminazione è il LED, disposto in modo tale da creare una luce indiretta e soft, ma al tempo stesso performante e diffusa. Questa collezione, nelle versioni da parete, sospensione e soffitto, può essere personalizzata nell'installazione a seconda degli spazi e dell'effetto che si vuole ottenere, dando vita anche a soluzioni più scenografiche accostandone diverse insieme.

Starlight ist eine Leuchtenkollektion mit zartem aber selbstbewusstem Design. Eine gelungene Anordnung geometrischer Figuren erzeugt eine ganz eigenständige Dynamik. Das indirekte Licht ist weich und verströmt eine angenehme Atmosphäre. Die Kollektion bietet Decken-, Wand- und Pendelleuchten die, passend zu den Räumlichkeiten, entsprechend der eigenen Bedürfnisse durch Zusammenstellen verschiedener Exemplare eigene Szenarien bilden.

Starlight is a collection of lamps with a slender, yet striking appearance, where geometric elements are combined to create a dynamic effect. LED technology is used for lighting, placed so as to create a soft, indirect light that is also high performance and diffused. This collection, with its wall, suspension and ceiling versions, can be customised for installation according to the spaces and the effect you want to create, also producing spectacular solutions by combing different versions.

Starlight est une collection de lampes à l'aspect fluide mais incisif, dans laquelle la combinaison d'éléments géométriques crée un effet dynamique. La LED, technologie utilisée pour l'éclairage, est disposée de sorte à créer une lumière indirecte et douce, mais aussi efficace et diffuse. Cette collection, disponible en version murale, suspension ou plafonnier, bénéficie d'une installation personnalisable en fonction des espaces et de l'effet désiré : la combinaison de plusieurs lampes peut également créer des solutions plus théâtrales.

Lampada da sospensione in alluminio, verniciato bianco o antracite. Illuminazione LED luce calda con diffusione indiretta e soft. Dimmerabile 1-10V.

Suspended lamp in white or anthracite painted aluminium. Warm indirect and diffuse reflection though LED light. Dimmer 1-10V.

Lampe à suspension en alu laqué blanc ou anthracite. Source LED à lumière chaude avec diffusion indirecte et douce. Avec variateur d'intensité 1-10V.

Pendelleuchte aus Aluminium, weiss oder Anthrazit lackiert. Warmes LED-Licht mit indirekter Ausstrahlung. Dimmbar 1-10 V.

# MIRAGE /

Designed by David Dolcini

“Volevo racchiudere un forte dinamismo all'interno di un oggetto atemporale, dalle proporzioni eleganti e dal profilo femminile”. Grazie al suo profilo sinuoso e alla relazione che si genera tra le due finiture, interna ed esterna, la percezione della luce e della lampada stessa muta di volta in volta a seconda della posizione di chi la osserva. Caratterizzata dall'utilizzo di una sorgente LED di ultima generazione e da un paralume in alluminio con una doppia finitura (esterna e interna), Mirage è una lampada pensata per arredare, decorare ambienti e spazi privati e progetti contract.

Mirage entspringt dem Bedürfnis, eine starke Dynamik in einem zeitlosen Element mit eleganten Proportionen und einem femininem Profil zu vereinigen. Dank des sinusförmigen Profils und des Verhältnisses das sich zwischen der inneren und äußeren Ausführung bildet wird erscheinen das Licht und die Mirage selbst je nach Blickpunkt in stets veränderter Form. Mirage wird durch LED der neuesten Generation, sowie einen Aluminiumschirm mit unterschiedlicher Ausführung für Innen- und Außenseite charakterisiert. Das Ergebnis ist eine dekorative Leuchte für den Heim- und Objektbereich.

“I wanted to encapsulate strong dynamism inside a timeless object with elegant, feminine proportions”. Thanks to its sinuous outline and the relationship between the inner and outer finishes, the perception of the light and the lamp itself changes according to the position of the observer. It features a last generation LED bulb and an aluminium lampshade with a dual inner and outer finish. Mirage is a lamp designed to furnish, decorate homes, private spaces and contract projects.

« Je voulais capturer un dynamisme fort dans un objet intemporel, aux proportions élégantes et au profil féminin ». Grâce à son profil sinueux et au rapport né des deux finitions, interne et externe, la perception de la lumière et de la lampe même change perpétuellement selon la position de l'observateur. Caractérisée par l'utilisation de LED de dernière génération et par un abat-jour en aluminium avec une double finition (externe et interne), Mirage est une lampe pensée pour meubler, décorer des pièces et des espaces privés ou encore pour des projets de gros marchés.

Lampada a sospensione in metallo con finiture cromo, rame, ottone o bianco lucido. Rosone in tinta con il paralume. Sorgente LED 220-240v luce calda. Dimmerabile a taglio di fase.

Suspended metal lamp in chrome, copper, brass or shiny white finish. Ceiling rose in the same finish. LED 220-240 warm light source. AC phase-cut dimming.

Lampe à suspension en métal, finition chrome, cuivre, laiton ou blanc brillant. Rosace dans la même finition que l'abat-jour. Source LED 220-240 à lumière chaude. Avec variateur d'intensité.

Pendelleuchte mit integriertem Trafo aus Metall in Chrom, Messing, Kupfer und weiß lackiert. Baldachin in den gleichen Ausführungen. Warmes LED Licht (220-240). Dimmbar.

# PIPES /

Designed by Thomas Feichtner

Tubi accavallati uno sopra l'altro a formare una cascata. Questo raffinato e semplice concetto è alla base della progettazione del designer austriaco Thomas Feichtner. Tubi in alluminio di diverse lunghezze, piegati ed accavallati con una leggera angolazione, a cui ad ogni estremità è stata posta una sorgente LED. I singoli segmenti dalle linee bidimensionali sono disposti a ventaglio a formare una circonferenza, ottenendo così un unico corpo, un oggetto geometrico e leggero.

Rohre zu einer Leuchte übereinander gestapelt - so einfach, aber nicht minder raffiniert ist der Entwurf des österreichischen Designers Thomas Feichtner für den italienischen Leuchtenhersteller Karboxx. Einzelne gebogene und unterschiedlich lange Rohrsegmente sind jeweils mit LEDs als Leuchtmittel bestückt und im leichten Winkel zueinander aufeinander gestapelt. Das einzelne Segment, als zweidimensionale Linie, ergibt erst in der Rotation einen runden, geschlossenen Körper. Allein durch das Addieren der Segmente entsteht ein geometrisches Lichtobjekt.

Pipes one crossed over the other to form a cascade. This simple and elegant concept is the basis of projects by Austrian designer Thomas Feichtner. Aluminium pipes of various lengths bent and crossed at a slight angle, with an LED light source at every end. The individual segments with their two-dimensional lights are arranged in a fan-shape to form a circumference, producing a single body, a light, geometric object.

Des tubes qui se chevauchent pour former une cascade. C'est ce concept simple et raffiné qui est à la base de l'idée du designer autrichien Thomas Feichtner. Des tubes en aluminium de différentes longueurs, pliés et se chevauchant avec une légère inclinaison, dotés à chaque extrémité d'une LED. Chaque segment aux lignes bidimensionnelles est disposé en éventail pour former une circonférence, obtenant ainsi un corps unique, un objet géométrique et léger.

Lampada a sospensione composta da tubi in alluminio piegati e accavallati. Struttura verniciata in quattro colori (bianco, antracite, rame, oro). Sorgenti LED luce calda su ciascuna estremità.

Suspended lamp made by aluminium pipes bent and crossed one over the other. Structure painted in four colours (white, anthracite, copper, gold). LED warm light source on each end.

Lampe à suspension composée de tubes pliés qui se chevauchent. Structure laquée en quatre couleurs (blanc, anthracite, cuivre, or). Source LED à lumière chaude à chaque extrémité.

Pendelleuchte aus einzelnen gebogenen und unterschiedlich lange Rohrsegmenten, jeweils mit LEDs (warmes Licht) als Leuchtmittel punktuell bestückt. Ausführungen: weiss, Anthrazit Kupfer und Gold lackiert.

# OPPO /

Designed by Thomas Feichtner

Fino ad oggi, molte lampade hanno richiesto paralumi o riflettori per diffondere e direzionare la luce. Non le lampade Oppo: grazie alla più recente tecnologia LED, la sorgente di luce funge anche da diffusore, offrendo una piacevole luce diretta ed indiretta. Si tratta di una superficie di illuminazione sottile appena 10 mm posta in cima ad una costruzione rettangolare. Da qui il nome Oppo per "opposite", "opposto", come un riferimento alla sua illuminazione bidirezionale. Il concetto di design puro e minimalista rende questa lampada speciale e funzionale anche nell'uso quotidiano, in quanto grazie alla mensola, diventa oggetto pratico e d'arredo, proposto in due diverse altezze: 175 e 120 cm.

Der italienische Leuchtenhersteller Karboxx entwickelte gemeinsam mit dem Designer Thomas Feichtner die Stehleuchte Oppo. Bisher benötigten viele Leuchten Lampenschirme, um das Licht greller und punktueller Lichtquellen zu streuen. Nicht so bei Oppo Light: Das neue Konzept der Leuchte verzichtet gänzlich auf einen Reflektor. Dank neuester LED-Technologie ist die Lichtquelle gleichermaßen auch Diffuser und ermöglicht ein angenehmes, direktes sowie indirektes Licht auf Decke und Boden. Daher auch der Name Oppo, wie opposite (en) oder opposto (it), abgeleitet aus dem gegenseitigen Ausleuchten. Das klare und minimalistische Gestaltungskonzept geht ganz auf das Wesentliche der Leuchte ein. Eine dünne – nur 10 mm starke – Lichtfläche, die von einer rechteckigen Konstruktion getragen wird. Oppo Light wird in zwei verschiedenen Höhen angeboten. In 175 und 120 cm.

Until today, many lamps have needed lampshades or reflectors to spread or direct light. Not Oppo lamps, thanks to the most recent LED technology. The light source also acts as a diffuser, offering both pleasant direct and indirect light. It has a thin light surface, just 10 mm, placed on the top of a rectangular body. This was the inspiration for its name: Oppo for 'opposite', as a reference to its bi-directional lighting. The pure, minimalist design concept makes this lamp special and functional, even in everyday use, as thanks to its shelf it becomes a practical furnishing item, available in two heights: 175 and 120 cm.

Jusqu'à aujourd'hui, la plupart des lampes nécessitaient un abat-jour ou un réflecteur pour diffuser et diriger la lumière. Les lampes Oppo en sont dépourvues : grâce à la technologie à LED la plus récente, la source de lumière sert également de diffuseur pour offrir une agréable lumière directe et indirecte. Il s'agit d'une superficie d'éclairage fine, de 10 mm à peine, située au sommet d'une construction rectangulaire. D'où son nom Oppo, comme « opposite », « opposé », en référence à son éclairage bidirectionnel. Le concept de design pur et minimaliste rend cette lampe spéciale et fonctionnelle, également pour une utilisation quotidienne, grâce à sa tablette, pratique et décorative. Proposée en deux hauteurs différentes : 175 cm et 120 cm.

Lampada da terra composta da una composizione rettangolare in metallo verniciato antracite e un sottile diffusore in metacrilato HR per un'illuminazione bidirezionale (diretta e indiretta). Sorgente LED luce calda. Dimmerabile.

Floor lamp made by a rectangular structure in anthracite painted metal and a thin HR methacrylate diffuser that enables a bidirectional lighting (both direct and indirect). LED warm light source. Dimmable.

Lampadaire constitué par une construction rectangulaire en métal laqué anthracite et un fin diffuseur en méthacrylate HR pour un éclairage bidirectionnel (direct et indirect). Source LED à lumière chaude. Avec variateur d'intensité.

Stehleuchte besteht aus einer rechteckigen Metallkonstruktion und einer bidirektionaler Diffusor aus Methacrylat. Direkte sowie indirekte LED-Beleuchtung warmes Licht. Dimmbar.

# ZERO1 /

Design Princic&Righi

Zero1 è una forma pura pensata per stare in ogni spazio. Non nasce per essere "la novità", ma come evoluzione di un concetto che appartiene al nostro immaginario. Un anello di led che illumina un paralume traslucido in fibra di vetro rendendo la lampada riconoscibile e discreta allo stesso tempo.

La personalizzazione delle dimensioni e le molte combinazioni possibili consentono di illuminare dagli ambienti classici fino agli spazi più estremi. Un oggetto aperto ad infinite interpretazioni.

Zero1 is a pure shape designed for any space. It has not been conceived as a "new idea", but as the evolution of a concept we have in our collective unconscious. An LED ring that lights up a translucent fibre glass lampshade, making the lamp instantly recognisable yet discreet. It can be personalised in size and is available in many combinations to bring light to the most traditional or unusual spaces. Zero1: an object which is open to infinite interpretations.

Zero1 est une forme pure, conçue pour s'adapter à n'importe quel espace. Elle ne voit pas le jour comme une « nouveauté », mais comme une évolution d'un concept qui appartient à notre imagination. Un anneau de led qui éclaire un abat-jour translucide en fibre de verre, ce qui rend la lampe reconnaissable et discrète à la fois. La personnalisation des mesures et les nombreuses combinaisons possibles permettent d'éclairer des environnements classiques tout comme les espaces les plus extrêmes. Un objet ouvert à une infinité d'interprétations.

Zero1 hat eine klare Form, die für die Verwendung in verschiedensten Umgebungen konzipiert ist. Zero1 soll nicht „etwas Neuartiges“ sein, sondern vielmehr die Weiterentwicklung eines Konzepts unserer Phantasie. Ein LED-Ring, der einen durchscheinenden Lampenschirm aus Glasfaser beleuchtet und der Lampe ein markantes und gleichzeitig schlichtes Aussehen verleiht. Dank der verschiedenen erhältlichen Größen und der zahlreichen Kombinationsmöglichkeiten kann alles beleuchtet werden, von herkömmlichen Räumen bis zu den ausgefallensten Objekten. Eine Leuchte, die unendliche Interpretationsmöglichkeiten bietet.

# OLA /

Design Enrico Franzolini

Ola è la collezione nata dalle sensazioni del designer Enrico Franzolini: Karboxx le materializza attraverso nuove tecnologie e materiali. Una fibra di vetro che è risultato di un lungo processo di ricerca tecnologica e materica. Un materiale che crea atmosfere uniche filtrando la luce attraverso le sue forme. La luce chiara che illumina la notte, il sole cocente d'estate, la bellezza di un tramonto: Ola reinterpreta la luce degli elementi in tre misure e cinque finiture. Terra, tavolo, appoggio, sospensione, soffitto e parete: una collezione completa che utilizza lampadine LED ed a risparmio energetico.

Ola is the collection born from the sensations of the designer Enrico Franzolini: Karboxx materialized these sensations through new materials and technologies. A composite Fibreglass is the result of a long process of R&D. Beautiful atmospheres, shadows and lights filtered by the shape of the lamp. The bright light in the night, a hot sun in the summer, the beauty of a sunset: Ola reinterprets the light of elements in three sizes and five colors. Floor, suspended, table: a complete range using LED and energy saving bulbs.

Ola est la collection née de la sensibilité du Designer Enrico Franzolini: KARBOXX a concrétisé ses idées à travers de nouveaux matériaux et nouvelles technologies. Une longue étude de recherche et développement a permis la mise au point d'une nouvelle fibre de verre composite. Un matériau qui crée une atmosphère unique en filtrant la lumière à travers les formes de la lampe. La lumière brillante dans la nuit, un chaud soleil d'été, la beauté d'un coucher de soleil: Ola réinterprète la luminosité de chaque élément en trois tailles et cinq couleurs. Au sol, suspendue, à poser: une gamme complète utilisant des LEDs et des ampoules basse consommation.

Ola ist die Kollektion die aus den Eindrücken des Designers Enrico Franzolini geboren wurde: Karboxx materialisiert diese durch neue Technologien und Materialien. Eine Glasfaser ist das Ergebnis eines langen Forschungsprozesses in Bezug auf Technologie und Material. Ein Material, das das Licht durch seine Formen filtert und so einzigartige Atmosphären zu schaffen vermag. Das klare Licht das die Nacht erhellt, die gleißende Sonne, die Schönheit eines Sonnenunterganges: Ola interpretiert das Licht der Elemente in drei Abmessungen und in fünf Ausführungen. Stehlampe, Tischleuchte und Deckenleuchte: Eine komplette Kollektion die LED und Energiesparlampen verwendet.

Ola, un nome semplice per una lampada semplice.  
 La perfezione imperfetta, la materia immateriale, la notte e il giorno, il sole e la luna, la realtà e il sogno. Paralume in fibra di vetro in cinque differenti colori e stelo in metallo verniciato antracite.  
 Disponibile in altri colori a richiesta.

Con Elios il designer Enrico Franzolini continua la sperimentazione ed il percorso di ricerca su come la luce, la forma ed il materiale possano intrecciarsi per ottenere oggetti, emozioni ed atmosfere particolari che ci accompagnino nei momenti della nostra vita quotidiana. Oro ed argento sono le nuove colorazioni del paralume in fibra di vetro che si uniscono a quelle più tradizionali quali il bianco e l'arancio. La sorgente scelta è il LED dimmerabile, molto performante ed idoneo ad illuminare spazi ampi con un bassissimo consumo.

Mit Elios setzt der Designer Enrico Franzolini seine Forschungen fort um nach Möglichkeiten zu suchen, wie Licht, Formen und Materialien zu neuen Leuchtobjekten, Emotionen und Atmosphären die uns im täglichen Leben begleiten verbunden werden können. Gold und Silber sind die neuen Farben des Lampenschirmes aus Glasfaser die sich zu den traditionellen Farben wie Weiß und Orange hinzu gesellen. Das sehr leistungsfähige, dimmbare LED Licht eignet sich zur Ausleuchtung von großen Räumen bei niedrigstem Energieverbrauch.

With Elios designer Enrico Franzolini continues his experimentation and research into how light, form and material can combine to create objects, emotions and special atmospheres that accompany us in every moment of our daily life. The fibreglass lampshade is now available in gold and silver, together with the more traditional shades of white and orange. The high performance LED bulb has a dimmer and can light large spaces with low energy consumption.

Avec Elios, le designer Enrico Franzolini continue ses expériences et son parcours de recherche sur comment la lumière, la forme et le matériau peuvent s'entremêler pour obtenir des objets, des émotions et des atmosphères particulières qui nous accompagnent dans les moments de notre vie de tous les jours. L'or et l'argent, nouvelles colorations des abat-jour en fibre de verre, rejoignent celles plus traditionnelles comme le blanc et l'orange. La source lumineuse est une LED avec variateur, très performante et adaptée à l'éclairage des grands espaces avec une faible consommation.

Lampada da terra con paralume in fibra di vetro disponibile nelle colorazioni bianco, arancio, argento e oro. Base in metallo verniciato antracite; sorgente LED luce calda. Dimmerabile.

Floor lamp with shade in fibreglass available in white, orange, silver and gold finishes. Base in anthracite painted metal. Warm LED light source. Dimmable.

Lampadaire avec diffuseur en fibre de verre laquée en quatre finitions: blanc, orange, argent et or. Base en métal laqué anthracite. Source LED à lumière chaude. Avec variateur d'intensité.

Stehleuchte mit Metallgestell, Ausführung Anthrazit, und Leuchtschirm aus Glasfaser, in den Ausführungen weiß, orange, Silber und Gold verfügbar. Warmes LED-Licht. Dimmbar.

# BABEL /

Design Fabio Flora

Da Babele nasce la nostra società.  
Babele è la nostra società.  
Suo simbolo, della sua genesi  
e sopravvivenza, una torre mai  
terminata, un tronco di cono che sale  
a spirale. Oggi la torre è collassata  
(la spirale non sale soltanto,  
sale e scende) eppure c'è ancora;  
è in equilibrio precario ed è alimentata  
da una luce interna.

Our society was born from  
Babele. Babele is our society.  
A symbol of its genesis and  
survival, a tower which was  
never finished, a cone log that  
rises like a spiral. Today the  
tower is collapsed (the spiral  
does not only rise, but rises and  
falls) nevertheless it still exists;  
its precarious equilibrium is  
nourished from an inner light.

Notre société est née de Babel.  
Babel symbolise notre société.  
Un symbole de sa genèse, de  
sa survie, une tour qui n'en finit  
pas, un cône qui progresse en  
spirale.

Unsere Gesellschaft entspringt  
dem Turm zu Babel. Babel  
ist unsere Gesellschaft. Sein  
Symbol, seine Entstehung und  
Überleben, ein nie fertiggestell-  
ter Turm, Stumpf einer eines  
spiralförmigen Kegels. Heute ist  
der Turm eingestürzt, aber es  
gibt ihn immer noch: er bleibt  
in einem labilen Gleichgewicht  
und wird von einem inneren  
Licht angetrieben.

Una quasi sfera di vetro soffiato con una scanalatura mediana ad accogliere una cuffia tessuta a mano. Texture tessili uniche che filtrano la luce in modo sempre diverso. L'esaltazione del fatto a mano.

A nearly sphere of blown glass with a median groove which holds a hand crocheted cap. Crocheted in an unique weave texture that always filters the light in various ways.

Une quasi sphère en verre soufflé avec une élégante rainure sur laquelle vient se fixer une coiffe au crochet. Tissage à la texture unique qui vient filtrer la lumière dans la partie supérieure.

Fast schon eine perfekte Kugel aus mundgeblasenem Glas mit einer umlaufenden Rille, die eine handgewebte Haube aufnimmt. Einzigartige Textiltexturen, die das Licht in immer anderer Weise filtern: die Vollendung der Handwerkskunst.

Lampada da terra a luce diffusa.  
Diffusore in vetro opalino, soffiato  
a bocca, con finitura esterna acidata,  
bianca. Base in alluminio verniciato  
grigio chiaro. Cuffia decorativa  
opzionale nei colori: nero o beige.

Floor lamp providing diffused  
light. Diffuser consisting of an  
externally acid-etched hand  
blown, flashed opaline  
white glass Base in aluminium  
painted light grey. On request,  
decorative cap in black or beige.

Lampadaire à lumière diffuse.  
Diffuseur en verre opalin,  
soufflé à la bouche, avec  
finition extérieure acide en color  
blanc. Base en alu gris clair.  
Coiffe décorative optionnelle  
en couleurs noir ou beige.

Stehleuchte mit dem Streulicht.  
Blendschutz aus geblasen Glas  
Opalen mit der äußere geätzte  
Ausführung, Farbe Weiß,  
Grau und Bernstein. Stütze aus  
Aluminium hell Grau lackiert.  
Dekoratives Netz in schwarz  
oder beige.

# BLONDĒ /

Design Massimiliano Mornati

Il concept di Blonde si basa su elementi quali versatilità, fantasia, finiture, che possono essere scelti e decisi dal designer per personalizzare e caratterizzare ogni singolo progetto.

Una forma trapezoidale, dal gusto postindustriale forse "radical chic" in grado di dipingere ed illuminare lo spazio.

L'alluminio viene verniciato con la finitura desiderata dal designer oppure scegliendo tra l'effetto cemento, ruggine, cromo nero lucido, bronzo spazzolato o il bianco.

Anche la lunghezza può essere personalizzabile fino ad un massimo di 5 metri.

La sorgente luminosa LED, diretta ed indiretta, con funzione dimmer, garantisce un ottimo comfort visivo per ogni esigenza progettuale.

Blonde concept rests on versatility, creativity and finishes elements that can be chosen by designers and architects in order to customize and mark out every single project. A trapezoidal shape, with a postindustrial taste, paints and lights up the space. The aluminium could be painted both with a finish required by the designer and with cement, curtain, chrome polish black, brushed bronze and white. Furthermore also the length could be customized till a maximum of 5 meters. The LED lamp, direct or not, with dimmer optional, assures a perfect visual comfort for every designing need.

Le concept de Blonde est basé sur différentes éléments comme la versatilité, la fantaisie, les finitions qui peuvent être choisis par le designer en moyen de personnaliser chaque projet. Une forme trapézoïdale de gout post industrielle, probablement "radical chic", capable de peindre et éclairer l'espace. L'aluminium verni avec la finition à choix de la part du designer ou en choisissant entre l'effet béton, rouille, chromé noir brillant, bronzé brossé ou blanc. La longueur aussi est à choix jusqu'à 5 mètres. La source LED, directe et indirecte avec dimmer garantie un confort de haute qualité pour chaque exigence.

Das Leuchtkonzept Blonde basiert auf Elementen wie Vielseitigkeit, Fantasie und Materialien, die vom Designer ausgewählt und bestimmt werden, um jedes einzelne Projekt personalisieren zu können. Eine Trapezform, durch postindustrielles Design geprägt, die den Raum prägt und erhellt. Der Aluminiumkörper wird mit der vom Projektleiter gewünschten Ausführung verarbeitet. Standardmäßig stehen die Ausführungen, Beton-Effekt, Rost, Chrom schwarz glänzend, Bronze gebürstet oder weiß zur Wahl. Auch die Lampengröße kann bis zu einer maximalen Länge von 5 Metern an die Kundenbedürfnisse angepasst werden. Die mit Dimmer ausgestattete LED-Lichtquelle, direkt und indirekt, gewährleistet einen hervorragenden Sichtkomfort in allen Raumsituationen

### CERTIFICAZIONI/CERTIFICATIONS

CE IP 20 CLASSE 1

# WARM /

Design Enrico Franzolini

Essere alla ricerca di geometrie morbide e sinuose, cercare qualcosa che esca dall'ombra. Trovare Warm, una lampada da interno ed esterno; la linea esalta il materiale e viceversa, come quando il diffusore in polietilene, in un gioco di trasparenze, si veste di una rete sensuale creando atmosfere suggestive. L'ispirazione e la tecnologia insieme per un risultato di luce calda ed avvolgente.

Searching for soft, sinuous shapes, looking for something that steps out from the shade. Discover Warm, a lamp for inside and outside, an evocative figure; the shape exalts the material and vice versa, like when the polyethylene spreader, playing with transparencies, puts on a sensual net creating suggestive atmospheres. Inspiration and technology together result in warm, embracing light.

A la recherche de formes douces et sinueuses, de quelque chose qui jaillit de l'ombre. Nous avons inventé WARM, une lampe pour l'intérieur ou l'extérieur, forme originale et objet technologique à la fois; la forme valorise les matières et vice versa; quand le diffuseur en polyéthylène jouant avec la transparence met un filet sensuel pour créer une atmosphère suggestive.

Auf der Suche nach weichen, geschwungenen Formen, nach etwas, das sich aus den Schatten löst. „Warm“ entdecken: eine Leuchte für Innen und Außen, die eine eindrucksvolle Form; das Design erhebt die Form des Materials und umgekehrt, der Diffusor aus Polyethylen mit spielt mit seinen Transparenzen, umgibt sich mit einem sinnlichen Netz das wunderbare suggestive Atmosphären schafft. Inspiration und Technologie kreieren ein warmes und fühlbar geschmeidiges Licht.

Lampada da terra con diffusore in polietilene bianco e base in metallo zincato verniciato in colore nero anche per utilizzo outdoor. A richiesta, rete tessile di copertura bianca o nera.

Floor lamp with white polyethylene shade and metallic base, painted black for outdoor use. On request, black or white net.

Lampadaire avec diffuseur en polyéthylène blanc et base en métal galvanisée laquée en noir pour utilisation à l'extérieur. Sur demande filet textile de couverture couleurs blanc ou noir.

Stehleuchte mit Blendschutz aus weißem Polyäthylen und Stütze aus schwarz verzinktem Metall. Auch für Outdoor geeignet. Auf Wunsch mit dekorativem weißen oder schwarzen Netz.

# ESCAPE /

Design Serena Papait

Escape è una lampada che nasce con l'intento di sperimentare la dinamicità della luce in un contesto di staticità, di creare una sorta di vibrazione che si manifesta con la lettura di diversi livelli di luce. La lampada è composta da una serie di elementi perfettamente orizzontali e paralleli tra di loro, che rappresentano la volontà di ricercare mediante la forma un equilibrio e un ordine naturale.

Escape is a lamp that has been designed in the attempt to experience the dynamism of light in a context of stillness a kind of vibration that manifests with the diffusion of the light at different levels.

The lamp is composed of a series of perfectly horizontal elements, parallel between them, that represent the will to search, by means of this shape, an equilibrium and natural order.

Escape est une lampe dessinée dans le but d'expérimenter le dynamisme d'une lumière statique, de créer une sorte de vibration qui permet de diffuser la lumière sur plusieurs niveaux. La lampe est composée d'une série d'éléments parfaitement horizontaux, tous parallèles, symbole de la recherche d'un équilibre et d'un ordre naturel.

Escape ist eine Leuchte, die mit der Absicht, das dynamische Licht in einer Umgebung der Stabilität zu studieren, erstellt wurde: das Ziel, eine Art von Vibration in verschiedenen Lichtebenen zu kreieren.

Die Leuchte besteht aus einer Reihe von exakt horizontal und parallel zueinander angeordneten Elementen, die die Suche nach einer natürlichen Ordnung repräsentieren.

Lampada da terra composta da 6 elementi in alluminio verniciati bianco, disposti orizzontalmente ed in modo parallelo.

Floor lamp made up from 6 elements in white painted aluminium, horizontally arranged and parallel to each other.

# TUPLA /

Design by the Karboxx Design Centre

Semplicità, funzionalità e razionalità sono i concetti che hanno ispirato la collezione Tupla. Una forma semplice per un utilizzo versatile, quasi universale. Funzionale, perché è una lampada che consente di illuminare abbondantemente e con efficacia lo spazio. Intelligente, perché le sorgenti LED ad elevate prestazioni garantiscono un bassissimo consumo ed una eccezionale durata nel tempo in assenza di manutenzione. Diffusore in metacrilato, struttura in alluminio e sorgente LED sono le caratteristiche tecniche di Tupla.

Schlichtheit, Funktionalität und Vernünftigkeit gaben die Inspiration zur Kollektion Tupla. Eine schlichte Form für die unterschiedlichsten Aufgaben. Funktional, da mit der Leuchte ein Raum gut und effizient beleuchtet werden kann. Intelligente, da mit den hocheffizienten LED ein sehr niedriger Verbrauch und eine hervorragende Lebensdauer ohne Wartung erzielt wird. Ein Diffusor aus Acryl mit Alugestell sind zusammen mit der LED die grundsätzlichen Bestandteile von Tupla.

Simplicity, functionality and rationality are the concepts that inspired the Tupla collection. A simple shape for versatile and almost universal use. This functional lamp gives profuse and effective lighting in a space and its intelligent use of high performance LED bulbs ensure low consumption. The bulbs are exceptionally long-lasting with no need for maintenance. Tupla has a methacrylate diffuser, an aluminium structure and an LED light source.

Simplicité, fonctionnalité et rationalité: voici les concepts à l'origine de la collection Tupla. Une forme simple pour une utilisation polyvalente, presque universelle. Fonctionnelle, car cette lampe permet d'éclairer abondamment et efficacement l'espace. Intelligente, car les LED aux prestations élevées garantissent une consommation très faible et une durée dans le temps exceptionnelle, sans entretien. Le diffuseur en méthacrylate, la structure en aluminium et la source à LED caractérisent d'un point de vue technique Tupla.

Pratica lampada a parete con struttura in alluminio lucidato e diffusori cilindrici in metacrilato opalino. Sorgente LED 220-240 a luce calda. Dimmerabile a taglio di fase.

Functional wall-mounted lamp with polished aluminium structure and cylindrical diffusers in opaline methacrylate. Warm LED light source 220-240. AC phase-cut dimming.

Funktionale Wandleuchte mit gebürstetem Aluminium-Gehäuse und Diffusoren aus mattem Methacrylat. Warmes LED-Licht (220 – 240). Dimmbar.

Applique fonctionnelle avec structure en alu poli et diffuseurs cylindriques en méthacrylate opale. Source LED à lumière chaude 220-240. Avec variateur d'intensité.

# SHINE /

Designed by Moreno De Giorgio

Shine è una forma luminosa semplice, minuta e circolare, impreziosita da tratteggi di luce proiettati sul diffusore frontale. Un'ottica particolare, a misura di LED, emana un'efficace illuminazione radiale sulla parete e, grazie a 35 micro forature nascoste al suo interno, genera una gradevole texture luminosa intorno alla cornice. La magia della luce applicata alle fonti LED trasforma una piccola parte del fascio luminoso in decoro, a dimostrazione delle potenzialità espressive oltre che funzionali delle stesse.

Shine wirkt durch ihre schlichte, kreisförmige Gestalt die durch Lichtstreifen die auf den Diffusor treffen veredelt wird. Eine spezielle Optik für LED strahlt ein effizientes, radiales Licht auf die Wand und dank 35 versteckter Mikrobohrungen auf der Innenseite wird eine angenehme Textur rund um den Rahmen erzeugt. Die Faszination des Lichtes in Verbindung mit LED Technik verwandelt einen kleinen Teil der Lichtstrahlen in Dekoration, wodurch die Persönlichkeit der Leuchte und ihrer Möglichkeiten noch hervorgehoben werden.

Shine is a simple, minute, circular light form, enhanced by traces of light projected on the frontal diffuser. A special perspective, designed for an LED, emits effective radial illumination on the wall and the 35 micro-perforations hidden inside product a pleasant luminous texture around the frame. The magic of light applied to LED bulbs transforms a little part of the beam of light into decoration, demonstrating both its expressive and functional potential.

Shine est une forme lumineuse simple, menue et circulaire, enrichie de pointillés de lumière projetés sur le diffuseur frontal. Une optique spéciale, de la taille d'une LED, émane un éclairage radial efficace sur le mur et, grâce à ses 35 micro trous cachés à l'intérieur, génère une texture lumineuse agréable autour du cadre. La magie de la lumière appliquée aux sources à LED transforme une petite partie du faisceau lumineux en un décor, preuve des ses capacités d'expression et de fonction.

Lampada circolare da parete con struttura in metallo verniciata bianco e parte centrale tonda sempre in metallo verniciato bianco o nero a scelta. I LED diffondono luce calda con un particolare disegno grazie a 35 microforature nascoste.

Circular wall-mounted lamp with white metal structure and a central disk painted in white or black. LED light sources diffuse a warm light with a special design thanks to 35 hidden micro-perforations.

Applique circulaire avec structure en métal laqué blanc et partie centrale ronde laquée blanc ou noir, au choix. Les sources LED diffusent une lumière chaude avec un design spécial grâce aux 35 micro-trous cachés.

Runde Wandleuchte Shine mit schlichter, kreisförmiger Gestalt weiss lackiert, mittige runde Abdeckung in weiß bzw. schwarz lackiert. Effizientes und warmes LED-Licht, das dank 35 versteckter Mikrobohrungen auf der Innenseite eine angenehme Textur rund um den Rahmen erzeugt.

# TURN ME! /

Design Marta Laudani e Marco Romanelli

È ai LED che in fondo dobbiamo "Turn me!": un foglio di metallo semplicemente si piega su se stesso per ospitare la luce. Il suo aspetto minimale gli consentirà di adattarsi alle più diverse situazioni abitative e l'invenzione da cui nasce il suo nome, ovvero la possibilità di procedere ad una rotazione, consentirà a "Turn me!", con la semplicità di un gesto, di assumere molteplici e sempre mutevoli posizioni sulla parete. Luce verso l'alto, luce verso il basso, verso destra o verso sinistra: quando è isolata "Turn me" si propone come un oggetto poeticamente funzionale, mentre, qualora fosse ripetuta in serie, assumerebbe il valore di un'installazione artistica.

In the end it's the LEDs that give us "Turn me!": a sheet of metal simply folds itself to host light. Its minimal style means it can adapt to many different situations and the invention which gave it its name, that is to say the possibility to rotate, will let "Turn me!" take on multiple mutating positions on the wall, with just a simple touch. Light pointing up, light pointing down, to the left or right: when it stands alone "Turn me" is like a poetically functional object; when a series is repeated it takes on the value of an art installation.

C'est au fond aux LEDs que nous devons "Turn me!": une feuille en métal se plie simplement sur elle-même pour abriter la lumière. Son aspect minimaliste lui permettra de s'adapter aux situations d'habitation les plus diverses et l'invention dont naît son nom, c'est à dire la possibilité d'effectuer une rotation, permettra à "Turn me!", par la simplicité d'un geste, de prendre, sur le mur, des positions nombreuses et toujours changeantes. Lumière vers le haut, lumière vers le bas, vers la droite ou vers la gauche: quand elle est isolée, "Turn me" se propose comme un objet poétiquement fonctionnel, alors que si elle était répétée en série, elle prendrait la valeur d'une installation artistique.

Eigentlich verdanken wir "Turn me!" den LEDs: eine schlichte um sich selbst gebogene Metallfolie, in der das Licht aufgenommen wird. Durch ihr minimalistisches Aussehen passt sie sich jeder Wohnsituation an und durch die Erfindung, der sie ihren Namen verdankt, bzw. die Möglichkeit, gedreht zu werden, gelingt es "Turn me!" mit einer einfachen Geste zahlreiche und immer neue Positionen an der Wand einzunehmen. Nach oben, nach unten, nach rechts oder nach links gerichtetes Licht: alleine ist "Turn me" ein poetischer und funktionaler Gegenstand, während sie in Reihe zu einer kunstvoll gestalteten Installation aufgewertet würde.

Lampada da parete in metallo verniciato bianco opaco con sorgente LED. Può essere facilmente ruotata con la mano direzionando la luce a piacimento.

Wall light fixture in matt white painted metal with LED light source. It can be easily rotated by hand to point the light in the desired direction.

Lampe murale en métal laqué blanc mat avec source LED. Elle peut être facilement tournée avec la main en dirigeant la lumière à son gré.

Wandleuchte aus matt weiß lackiertem Metall mit LED-Lichtquelle. Sie kann leicht von Hand gedreht werden, um das Licht nach Belieben auszurichten.

# ADD /

Design Thomas Feichtner

La ceramica modellata a mano, un foro dove far passare la lampadina, il colore. Questa è Add, la tradizione di forme e materiali che si uniscono ad una lampadina. Un insieme di colori per arredare ed illuminare gli spazi della vita quotidiana, un grappolo colorato, classico e moderno allo stesso tempo.

Hand crafted pottery, a slot for the light bulb, colour. This is Add, the tradition of shapes and materials that join up with a light bulb. A mix of colours to furnish and illuminate our living space, a coloured bunch, classical and modern at the same time.

La céramique modelée à la main, un trou où faire passer l'ampoule, la couleur. Ceci est Add, la tradition de formes et matériaux qui s'unissent à une ampoule. Un ensemble de couleurs pour aménager et illuminer les espaces de la vie quotidienne, une grappe colorée, classique et moderne en même temps.

Von Hand geformte Keramik, eine Öffnung für das Leuchtmittel, die Farbe. Das ist ADD, Tradition der Formen und Materialien die sich mit dem Leuchtmittel vereinigen. Ein Zusammenspiel von Farben um unsere unmittelbaren Lebensräume mit Licht zu dekorieren. Eine gelungene Kombination klassischer Ästhetik und moderner Ansprüche.

Paralume in ceramica con l'interno sempre di colore bianco; all'esterno smalto colorato lucido in diversi colori. Solo la finitura "argilla" è opaca. Altri colori su richiesta.

Pottery lightshade coloured white on the inside; outside in glossy enamel in several colours. Only the clay finish is matt. Other colours on request.

Abat-jour en céramique avec l'intérieur toujours de couleur blanche; à l'extérieur vernis coloré brillant en différentes couleurs. Seule la finition "argile" est mate. D'autres couleurs sur demande.  
Trépied en métal blanc.

Lampenschirm aus Keramik, bei dem die Innenseite immer weiß ist; außen glänzendes farbiges Email in verschiedenen Farben. Nur die Ausführung "Ton" ist matt. Auf Anfrage sind weitere Farben erhältlich.

Design Massimiliano Mornati

Sveva, un'interpretazione contemporanea della lampada a sospensione, un'installazione luminosa dal segno deciso che dà forma all'immaterialità della luce.

Due lame lievemente piegate e contrapposte accolgono la sorgente luminosa e rivelano paesaggi inediti di luci e ombre.

Traslucida con luce diffusa, nella versione in metacrilato satinato, fortemente grafica quella in metallo verniciato.

Sveva, a contemporary interpretation of a suspended lamp, a luminous installation with a strong impact gives shape to immaterial light.

Two slightly bent opposing blades cradle the light source and reveal unusual landscapes of light and shade.

Translucent with diffuse reflection in the brushed methacrylate version, decidedly graphic in the painted metal version.

Sveva, une interprétation contemporaine de la lampe à suspension, une installation lumineuse de style franc qui donne forme à l'immatérialité de la lumière.

Deux lames légèrement pliées et opposées accueillent la source lumineuse et révèlent des paysages inédits de lumières et d'ombres.

Translucide avec une lumière diffuse, dans la version en méthacrylate satiné, la lampe en métal laqué est fortement graphique.

Sveva ist eine zeitgemäße Interpretation der Hängeleuchte, eine helle Installation, die Entschlossenheit erkennen lässt und der Immaterialität des Lichtes Form verleiht.

Zwei leicht gebogene und entgegengesetzt angeordnete Folien umhüllen das Leuchtmittel und bieten völlig neue Licht- und Schattenspiele.

Translucent mit gedämpftem Licht in der Version aus satiniertem Methacrylat, ein deutlich grafischer Akzent in der Version aus lackiertem Metall.

Lampada da sospensione con sorgente LED diretta ed indiretta. I diffusori sono in metacrilato opalino per una luce diffusa oppure in metallo verniciato bianco opaco per luce diretta ed indiretta.

Suspended lamp with direct and indirect LED light source. The shades are in opaline methacrylate for diffuse reflection or matt white painted metal for direct and indirect light.

Hängeleuchte mit direkter und indirekter LED-Lichtquelle. Diffusoren aus Opal-Methacrylat für gedämpftes Licht oder aus matt weiß lackiertem Metall für direktes und indirektes Licht.

Lampe à suspension avec source LED directe et indirecte. Les diffuseurs sont soit en méthacrylate opalin pour une lumière diffuse, soit en métal laqué blanc mat pour une lumière directe et indirecte.

elegant thought. Suspension  
lamp providing direct  
and diffused light emission.  
The diffuser in blown glass  
is available in white or black  
color.

Une bulle en verre soufflé.  
Une fleur qui fleurit sur sa tige.  
Une pensée fluide et élégante.  
La suspension émet une  
lumière directe et diffuse à la  
fois. Le diffuseur en verre soufflé  
est disponible en couleurs  
blanc ou noir.

Eine knospende Blume, ein  
zarter, flüssiger und eleganter  
Gedanke. Eine Pendelleuchte,  
die diffuses und direktes Licht  
abgibt. Der Diffusor, aus mund-  
geblasenem Glas hergestellt, ist  
in weiß oder schwarz erhältlich.

Lampada a sospensione con diffusore in vetro soffiato a bocca disponibile in colore bianco o nero. Asta e rosone in metallo verniciato nero.

Suspension lamp providing direct and diffused light emission. The diffuser in blown glass is available in white or black color. The stem, ceiling rose and cable in black color.

Pendelleuchte mit Lampenschirm aus mundgeblasenem Glas in weiß oder schwarz erhältlich. Die Stange und die Deckenrose sind aus weiß oder schwarz lackiertem Metall.

Suspension avec diffuseur en verre soufflé à la bouche disponible en blanc ou noir. Tige et rosace en métal noir.

# SUN /

Design Brian Rasmussen

Sun tratta il tema della luce sulla superficie della lampada: il tema del chiaro-scuro. Le aperture sul paralume permettono alla luce di giocare, riflettersi, di sottolinearne la forma sferica creando una serie di esplosioni luminose proprio come il sole... Il paralume è disponibile in due materiali: resina sintetica bianca ed un elegante tessuto nei colori bianco, rosso e nero. La collezione comprende le versioni sospensione, tavolo con diametro 50 cm, mentre il diametro più grande – 75 cm – è disponibile nel modello sospensione.

Sun explores the theme of light on the surface of the lamp: the theme of brightness and shadow. The slits on the shade allow the light to dance, glimmer and underscore the spherical shape creating a series of luminous explosions just like the sun itself... The shade is available in two different materials: white synthetic resin and an elegant textile fabric in white, red and black. Sun collection is hanging, table and suspended 50 cm diameter. The hanging version also in 75 cm diameter.

Sun explore le thème de la lumière à la surface de la lampe: le thème de l'ombre et la lumière. Les ouvertures dans l'ombre permettent à la lumière de danser, elles reflètent et soulignent la forme sphérique créant ainsi une série d'explosions lumineuses un peu comme le soleil lui-même! Disponible au choix en 2 matériaux différents: résine de synthèse de couleurs blanc ou élégant tissu blanc, rouge, ou noir. La collection SUN est constituée d'une version à poser en diamètre 50 cm et d'une version suspendue en diamètre 50 et 75 cm.

Sun erforscht das Thema des Lichts auf der Oberfläche der Leuchte: das Thema hell und dunkel. Die Öffnungen auf dem Lampenschirm lassen das Licht spielen und reflektieren. Die Kugelform unterstreicht die Schaffung einer Reihe von leuchtenden Explosionen wie die Sonne selbst... Der Schirm ist in zwei verschiedenen Materialien erhältlich: weiß Kunstharz und ein elegantes Textilgewebe in weiss, rot und schwarz. Die Kollektion „Sun“ bietet Pendelleuchten und Tischleuchten mit 50 cm Durchmesser, die Pendelleuchte ist auch in 75 cm Durchmesser erhältlich.

Lampada da sospensione costruita incastrando 96 volte sottilissimi fogli di tessuto bianco, rosso, nero o resina bianca. Rosone in metallo verniciato nero.

Suspended lamp made by slotting together 96 times very thin sheets of white textile fabric red, black or white resin. Support in black-painted metal.

Pendelleuchte die aus 96 dünnen aneinandergereihten Elementen aus weißem, roten oder schwarzen Stoff oder aus weißem Kunstharz besteht. Deckenrose schwarz lackiert.

Suspension construite en encastrant 96 fois des feuilles très mince en tissu blanc, rouge, noir ou résine blanche. Support en métal noir.
