

PRO filing cabinets

MARO Office Furniture

For 30 years, we have been making sure that office work is comfortable and ergonomic. Our furniture demonstrates our professionalism and love for what we do. We are passionate about creating exquisite and functional things and that translates into a quest for new solutions that turn concepts into products at a higher and higher level. Using innovative engineering solutions, we strive for ensuring that our products are top-notch. Our quality has been proved by ISO 9001 and Geprüfte Sicherheit certificates. This is possible thanks to our technology park, where world-class techniques come together under one roof. As a responsible producer, we wish to minimize our ecological footprint and expect the same from our suppliers.

Our Machinery Park guarantees top quality and precision. Thanks to the investments in new techniques and constant search for unconventional solutions, we thrive all the time. We are aware of how valuable the human factor is, therefore some elements of our furniture are hand-made. Gluing the carcasses of curved counters is a job where the human has an advantage over the machine. However, where surgical precision and repeatability in short time are necessary, we take advantage of the latest technique. Wood processing center drills, mills and processes the edges with utmost precision. The quality of our furniture is based on hundreds of trials and tests, thanks to which we are certain that we are second to none

PRO filing cabinets

STRUCTURE

- Chipboard coated on both sides with melamine resin with increased durability - 1st class.
- Chipboard with reduced formaldehyde emission, E1 standard.

CARCASS

- Carcass, top, floor and fronts made of 18 mm thick board finished with 2 mm thick ABS plastic edge with 3 mm radius
- Cabinet carcasses are factory-glued, assembled and delivered as a whole.
- 25 mm top as an option with a surcharge, available only for P type cabinets - cabinet 7 mm higher.

BACK WALL

- 8 mm thick back wall recessed into the groove between the sides of the cabinet. 18 mm thick back wall as an option with a surcharge.
- Back wall is coated on both sides with melamine resin, thanks to which it can stand independently.

EQUIPMENT

- Cabinets with hinged doors up to 1200 mm wide are equipped with vertical partitions.
- Hinged doors are equipped with a one- or two-point espagnolette lock with a rotating knob. Other handles as an option with a surcharge.
- Hinged doors are equipped with 110o hinges with soft close automatic mechanism.
- 270o hinges as an option with a surcharge.
- Cabinets must be secured with a counterweight (as an option with a surcharge) or fitted to the wall with a delivered mounting kit).

SHELVES

- Shelves made of 25 mm thick board finished with 2 mm thick ABS plastic with 3 mm radius. 18 mm thick shelves are an option (unavailable for 1000 mm wide cabinets with no vertical partition).
- Construction shelves marked on drawings.
- Possibility to mount 25 mm thick, metal, powder-coated, black shelves with holes for partition support. Flexible space arrangement in the cabinet thanks to drilling span every 32 mm over the whole side height.
- All shelves are secured in place - no possibility to accidentally pull shelf out of place.

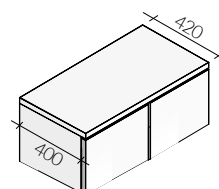

BASE

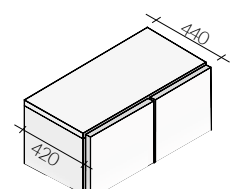

- Feet H:30 mm with leveling option as standard.
- Metal base H:30 mm or H:70 mm as an option with a surcharge.
- Frame H:150 mm on legs with a round cross section Ø 30 mm or square cross section 30x30 mm with a leveling function (as an option with a surcharge).
- Board base H:100 mm as an option with a surcharge
