## MARO Office Furniture

---

For 30 years, we have been making sure that office work is comfortable and ergonomic. Our furniture demonstrates our professionalism and love for what we do. We are passionate about creating exquisite and functional things and that translates into a quest for new solutions that turn concepts into products at a higher and higher level. Using innovative engineering solutions, we strive for ensuring that our products are top-notch. Our quality has been proved by ISO 9001 and Geprüfte Sicherheit certificates. This is possible thanks to our technology park, where world-class techniques come together under one roof. As a responsible producer, we wish to minimize our ecological footprint and expect the same from our suppliers.

Our Machinery Park guarantees top quality and precision. Thanks to the investments in new techniques and constant search for unconventional solutions, we thrive all the time. We are aware of how valuable the human factor is, therefore some elements of our furniture are hand-made. Gluing the carcasses of curved counters is a job where the human has an advantage over the machine. However, where surgical precision and repeatability in short time are necessary, we take advantage of the latest technique. Wood processing center drills, mills and processes the edges with utmost precision. The quality of our furniture is based on hundreds of trials and tests, thanks to which we are certain that we are second to none

# Reception counters Nivero

Nivero reception counter is a combination of functionality and modern design. Thanks to integrated underdesk sideboards and top-mounted shelf units, it makes a well-organized work station.

The front of the counter can be in one or two colors. It is possible to add a welcome inscription made of polished steel over the decorative profile. An add-on top with LED ambient light located in the center of the counter is an additional decoration. The add-on top can also be located on the left or right side.

Nivero reception counter can be equipped with numerous accessories depending on the user's individual needs.

---

## RECEPTION COUNTER FRONT

- Chipboard coated on both sides with melamine resin with increased durability - 1st class.
- Chipboard with reduced formaldehyde emission, E1 standard.
- Board finished with 2 mm thick ABS plastic edge with 3 mm radius.
