## MARO Office Furniture

---

For 30 years, we have been making sure that office work is comfortable and ergonomic. Our furniture demonstrates our professionalism and love for what we do. We are passionate about creating exquisite and functional things and that translates into a quest for new solutions that turn concepts into products at a higher and higher level. Using innovative engineering solutions, we strive for ensuring that our products are top-notch. Our quality has been proved by ISO 9001 and Geprüfte Sicherheit certificates. This is possible thanks to our technology park, where world-class techniques come together under one roof. As a responsible producer, we wish to minimize our ecological footprint and expect the same from our suppliers.

Our Machinery Park guarantees top quality and precision. Thanks to the investments in new techniques and constant search for unconventional solutions, we thrive all the time. We are aware of how valuable the human factor is, therefore some elements of our furniture are hand-made. Gluing the carcasses of curved counters is a job where the human has an advantage over the machine. However, where surgical precision and repeatability in short time are necessary, we take advantage of the latest technique. Wood processing center drills, mills and processes the edges with utmost precision. The quality of our furniture is based on hundreds of trials and tests, thanks to which we are certain that we are second to none.

# Space arrangement systems

Diviso helps to divide office space in a permanent way. It is mounted to the top of a cabinet or back wall of a 2OH, 3OH or 4OH cabinet.

## STRUCTURE

- Chipboard coated on both sides with melamine resin with increased durability - 1st class.
- Chipboard with reduced formaldehyde emission, E1 standard.
- Ribs 18 mm thick, finished with 2 mm thick ABS plastic edge with 3 mm radius.
- 150 mm deep ribs.

## HEIGHT

- Modules are available in heights: 3OH, 5OH or 6OH.
- Diviso affixed to back wall of the cabinet is equipped with leveling feet +20 mm.

## FRAME

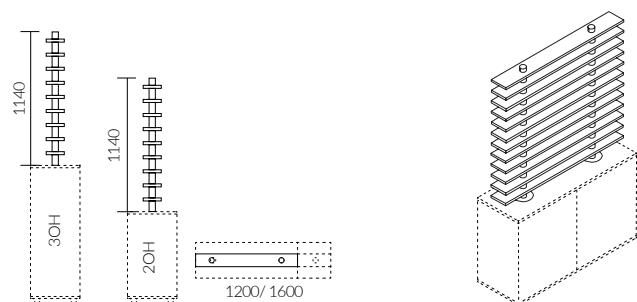

- Structure based on metal poles, with a round profile Ø 50 mm.
- Poles are 250 mm from the edge.
- Number of poles depends on the width of the partition. 1200 and 1600 mm wide Diviso is equipped with two construction poles. Wider versions: 2000 and 2400 mm are equipped with three poles.
- Diviso comes in a set with a cabinet (cabinet price is not included).
- Diviso is affixed to the top of 2 or 3OH cabinets, it is impossible to affix them to higher cabinets.
- Diviso is screwed to the back of the cabinet only with 18 mm thick back wall.

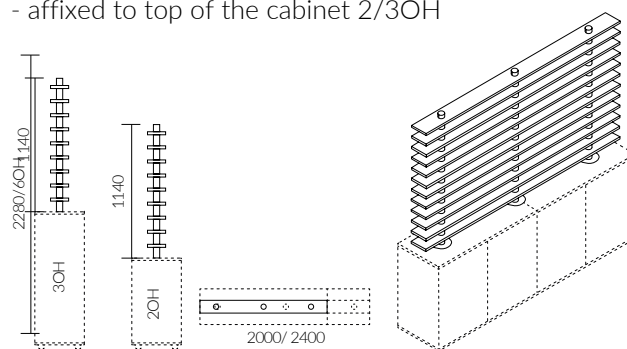

## ADDITIONAL INFORMATION

- Colors according to MARO

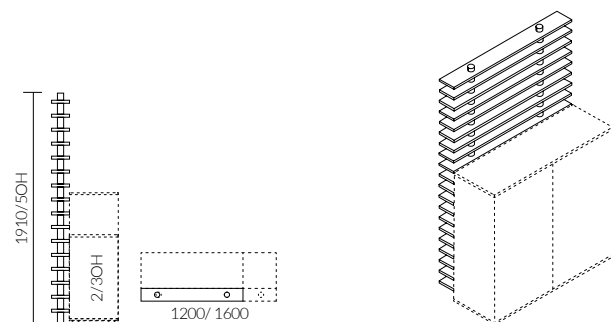

Diviso 3OH with two poles  
- affixed to top of the cabinet 2/3OH

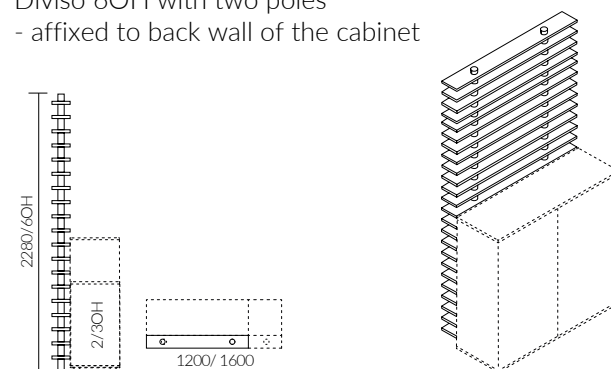

Diviso 3OH with three poles  
- affixed to top of the cabinet 2/3OH

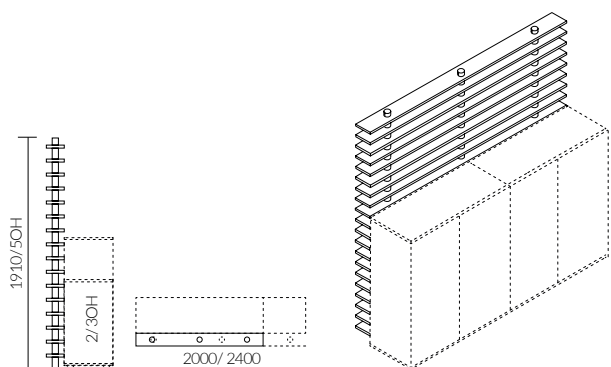

Diviso 5OH with two poles  
- affixed to back wall of the cabinet

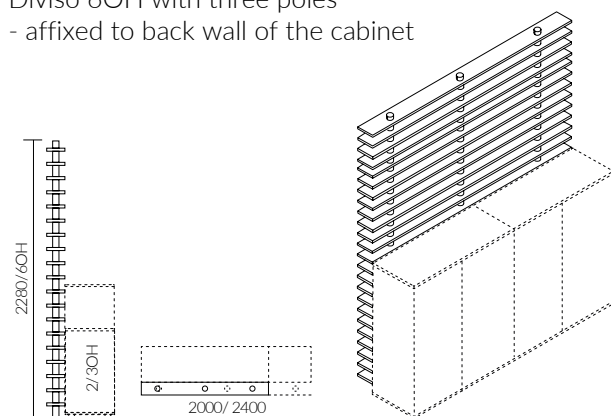

Diviso 6OH with two poles  
- affixed to back wall of the cabinet

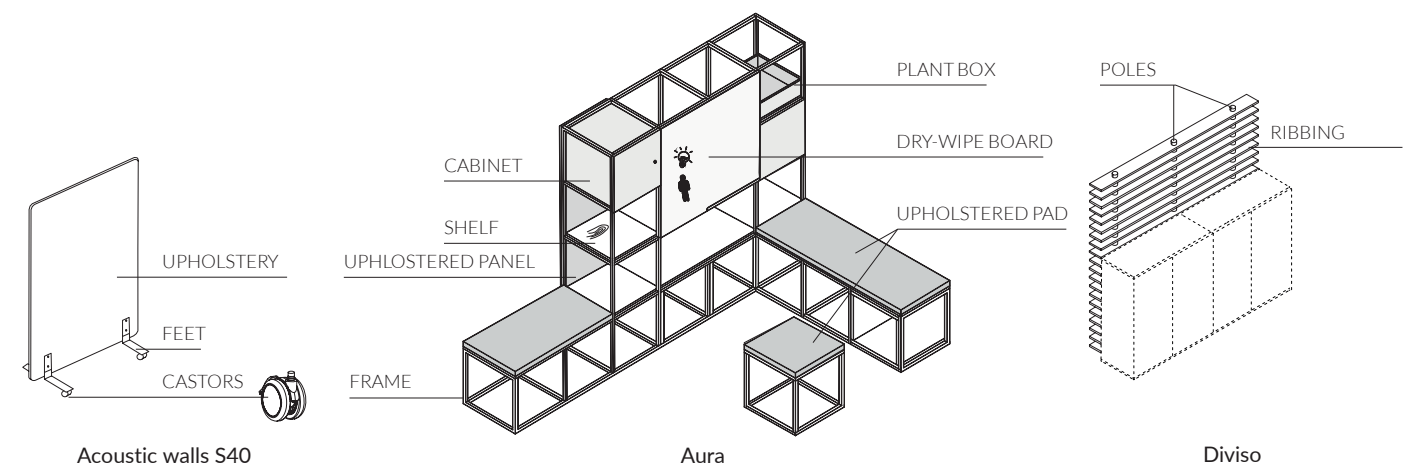

Diviso 5OH with three poles  
- affixed to back wall of the cabinet

Diviso 6OH with three poles  
- affixed to back wall of the cabinet
